Prometheus

Platinum Series Humidors

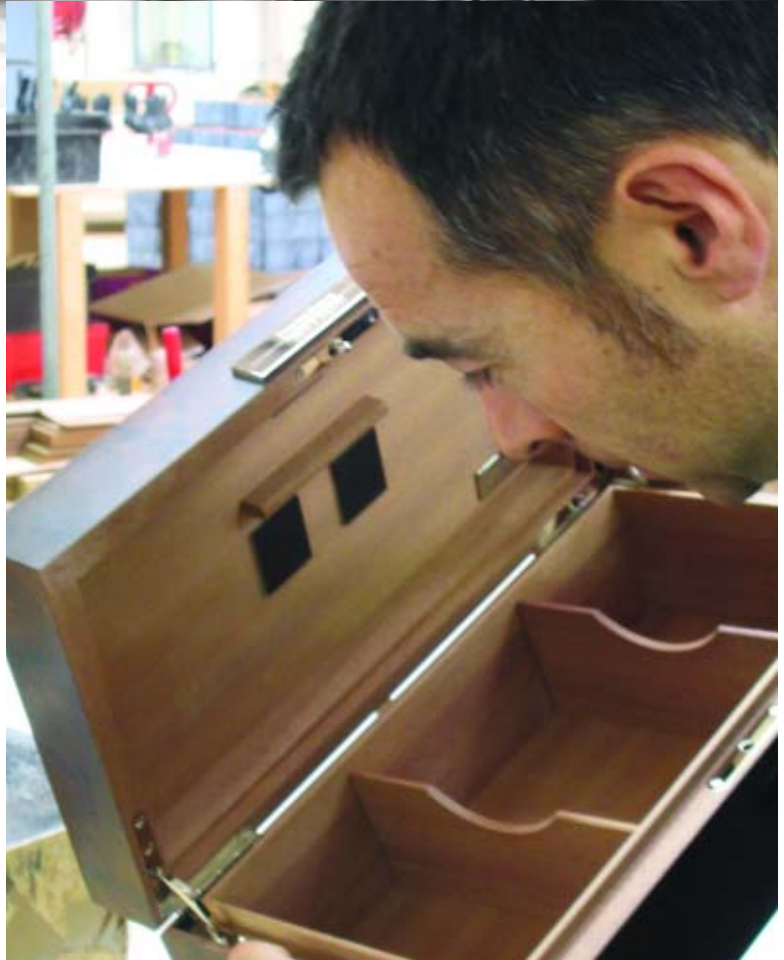

Prometheus introduced its first collection of its Platinum series humidors in 1996. Since then, they have become the most sought-after cigar humidors.

The Prometheus Platinum series humidors are made in France by its master artisans of wooden boxes and cabinets. Our master artisans select the finest and most exotic veneers for the outside, and carefully construct the inside for the best controlled-environment for cigars.

We have applied satin finish and attached shiny nickel plate for stylish, modern look. The Prometheus platinum series humidors are lined with the mahogany veneer inside in order to enhance the natural aging of cigars, and are equipped with the Prometheus digital hygrometer/thermometer and Optima humidifier, which is also made in France.

www.prometheuskkp.com

Prometheus Platinum Series Humidors are available in 10 different veneers. Each veneer comes in 50, 75, 100, 150, 200 and 300 cigar capacities. The inside veneer is mahogany.

nickel-plated, super hinge

nickel-plated lock and key
(not available on 50 cigars size)

nickel-plated name plate
